ATLANTA, Dec. 19, 2023 /PRNewswire/ -- Winter is coming, so it's time for drivers to consider if their vehicle is ready to take on the elements. If drivers live in a region that gets lots of snow and ice or other treacherous wintry conditions, they may want to consider upgrading to an all-wheel-drive (AWD) vehicle of some type. To help car shoppers find a winter-ready vehicle while sticking to an affordable used-car budget, Kelley Blue Book, a Cox Automotive company, recently named the [10 Best Used All-Wheel-Drive Vehicles Under \\$20,000](#) for 2023.

"There are plenty of great AWD hatchback, SUV, sedan and wagon models out there at almost any price point, so car shoppers should have many options from which to choose," said Brian Moody, executive editor for Kelley Blue Book. "As always, when shopping for maximum used-car value, shoppers should look for well-maintained, well-documented individual cars rather than focusing on a specific trim level or color."
