Editors Focus on Top 10 Fuel-Friendly Family Haulers, Feature Wide Variety of Vehicle Segments

IRVINE, Calif., Feb. 17 /PRNewswire/ -- Kelley Blue Book www.kbb.com, the leading provider of new- and used-car information, today announces its picks for the honor of being named one of 2009's Best New Family Vehicles. The American family has never had so many choices when it comes to safe, roomy and affordable family cars. While a sea of vehicles is ultimately a good thing, it can also make it more difficult for families to pick a winner. To help consumers determine which new cars should be on their family's consideration list, the editors of Kelley Blue Book's kbb.com compiled a list of the top 10 Best New Family Vehicles, evaluating an ever-lengthening list of eligible vehicles on such factors as resale value, fuel efficiency, capability and kid-friendliness.

This year, the kbb.com editors chose to put extra emphasis fuel economy when choosing their list of the top 10 [best cars](#) for families. Gas prices have dropped sharply from their record highs, but the sluggish economy is now dictating smart spending with a focus on overall value. Comprising a wide range of vehicles that includes a compact [sedan](#), a full-size [SUV](#), [hybrids](#), non-hybrids and a clean diesel, kbb.com's list of the 10 Best New Family Vehicles for 2009 features something for everyone.

Kbb.com's 2009 Best New Family Vehicles

Chevy Malibu	Honda Odyssey
Chevy Tahoe Hybrid	Toyota Camry Hybrid
Chevy Traverse	Toyota Highlander Hybrid
Ford Escape Hybrid	Toyota RAV4
Honda Civic	VW Jetta SportWagen TDI

Vehicles above listed in alphabetical order by brand

"Given the current state of the economy, parents want to get even greater value for their money while buying a new vehicle that will also accommodate their family's lifestyle and needs," said Jack R. Nerad, executive editorial director and executive market analyst for Kelley Blue Book and kbb.com. "Fuel-friendly family cars come in so many shapes and forms these days that, no matter the segment or powertrain, there is an efficient -- both economically and environmentally -- choice out there to suit everyone's needs."

Kbb.com Editorial Comments on the 2009 Best New Family Vehicles

(Vehicles below listed in order of overall passenger/cargo roominess)

[2009 Honda Civic](#)

29 mpg (25 city, 36 highway)

For families that pride themselves on thinking small, the Honda Civic is a perennial all-star. Combining impressive fuel economy, unrivaled reliability and class-leading resale values, the winner of our 2009 Small Sedan Comparison is one of those special vehicles by which all its competitors are measured.

[2009 Toyota Camry Hybrid](#)

34 mpg (33 city, 34 highway)

The hybrid version of the best-selling car in the country delivers an average of 135 more miles from a 15-gallon fill-up than its gas-only counterpart. On long family road trips, you'll have even less of a chance of making it through a full tank between restroom breaks.

[2009 Chevy Malibu](#)

26 mpg (22 city, 33 highway)

As a fuel-friendly family sedan, the newest Chevy Malibu has some seriously strong credentials. Not only does it offer class-leading fuel economy topping out at an impressive 33 highway miles per gallon, it also edged out the Honda Accord to win our 2008 Family Sedan Comparison Test.

[2009 VW Jetta SportWagen TDI](#)

34 mpg (30 city, 41 highway)

Thanks to the new technology and new clean diesel fuel that make it emissions-legal in all 50 states, the Jetta TDI's cult-like following is at risk of being absorbed by the mainstream. For some, the Jetta SportWagen TDI is the gold standard of responsible family transportation.

[2009 Ford Escape Hybrid](#)

32 mpg (34 city, 31 highway)

After undergoing a major overhaul for the 2008 model year, the Ford Escape Hybrid is improved again for 2009 with a more powerful and more efficient gas-electric powertrain. Its city fuel-economy rating of 34 miles per gallon is one better, even, than that of the Toyota Camry Hybrid's.

[2009 Toyota RAV4](#)

24 mpg (22 city, 28 highway)

In addition to class-leading fuel economy, the Toyota RAV4 offers one especially family-friendly feature uncommon in the category: a third row of seats. It's a tight squeeze back there for some, but we ran into a family who shuttled seven people from Northern Utah to Southern California -- and back -- in a RAV4.

[2009 Toyota Highlander Hybrid](#)

26 mpg (27 city, 25 highway)

The three-row crossover continues to fortify its recently acquired status as the quintessential family car. This gas-electric version of Toyota's Camry-based crossover has the distinct advantage of being the most fuel-efficient three-row vehicle on the road.

[2009 Chevy Tahoe Hybrid](#)

21 mpg (21 city, 22 highway)

Car-based crossovers continue to displace traditional SUVs in suburban driveways, but for big families with big passenger/cargo/towing needs, the full-size SUV remains indispensable. The Chevy Tahoe Hybrid is as green as it gets in this arena, and still offers towing capacity of up to 6,200 pounds.

[2009 Chevy Traverse](#)

19 mpg (17 city, 24 highway)

Boasting more cargo volume than even its Chevy Tahoe stablemate, the Traverse is the biggest crossover on the road -- yet it beats the fuel economy of many

smaller three-row vehicles. We like all the Traverse's siblings -- Buick Enclave, GMC Acadia, Saturn Outlook -- but the Chevrolet has the lowest starting price, which makes it our family pick.

[2009 Honda Odyssey](#)

20 mpg (17 city, 25 highway)

20 mpg (17 city, 25 highway) We've always thought an Acura badge would look right at home on the sharply styled, thoroughly refined Honda Odyssey. The most premium-like minivan on the market is also the most fuel efficient, thanks in part to its (optional) ability to cruise on three of six cylinders.

Family Vehicle Research Tools Available on Kelley Blue Book's [kbb.com](#)

- Full expert [car reviews](#) of 2009 model year vehicles, including written and video reviews
