

# Vehicle Cost of Ownership Information From PRIMEDIA's IntelliChoice to Be Featured on Kelley Blue Book's kbb.com

PRNewswire  
IRVINE, Calif.

Kelley Blue Book, the trusted resource for used and new car information, has signed a strategic partnership agreement with PRIMEDIA's IntelliChoice to bring vehicle "cost of ownership" information to consumers researching new cars on kbb.com .

IntelliChoice's cost of ownership tool compiles the average amount of money it will cost to own and operate a vehicle over a standard five year period. The ability to review and understand these costs can save consumers hundreds of dollars and help them to make better overall financial decisions when considering buying a new vehicle. Cost of ownership information is expected to be available on kbb.com by the end of the year.

"Kelley Blue Book is a well respected industry leader for trusted vehicle information and IntelliChoice is delighted to be able to provide their users with essential cost of ownership information that will help them make wise automotive purchase decisions," said Dave Wurster, publisher of PRIMEDIA's IntelliChoice.

When determining the cost of ownership IntelliChoice looks at depreciation, financing, insurance, state fees, repairs, maintenance, and other applicable fees. IntelliChoice will also provide an unbiased value rating for the vehicle. This value is based on how much it will cost to own and operate the vehicle compared to its purchase price.
