Kelley Blue Book ([www.kbb.com](http://www.kbb.com)), America's most trusted resource for new- and used-vehicle information, today launches the most up-to-date 'Blue Book' values and long-awaited expert reviews on the hottest "CARS" on the silver-screen -- the cars of "CARS," the Walt Disney Pictures and Pixar Animation Studios feature to be released June 9. In addition to unique and exclusive content for "CARS" movie fans, Kelley Blue Book and kbb.com offers site visitors a chance to win tickets to an advance screening of the highly-anticipated automotive flick.\*

As Kelley Blue Book prides itself on providing the most up-to-date pricing and values for new and used vehicles, the site today launches values for a few sought-after vehicles destined to be collector cars. The editors of kbb.com report significant increases to some high-profile vehicles, including "CARS" Lightning McQueen, Mater and others.

"We were impressed by Lightning McQueen's 200-mile-per-hour top speed, and his remarkably quick 4.5-second zero to 60 mile-per-hour time," said Jack R. Nerad, executive editorial director and market analyst at kbb.com. "With those specifications and the demand we are seeing in the marketplace, this speedster's value is the most expensive in the history of the Kelley Blue Book Official Guide®."

The company's famous guide book first produced in 1926, and its 10-year-old Web site kbb.com, also report that today marks the first time ever that the Blue Book has placed a value on a tow truck.

"Tow-Mater, as this specific tow truck likes to be called, was difficult to place a value on without a pink slip or any appropriate badging, but its value has been enhanced due to its low-volume, hard-to-find model status," said Nerad.

## Cars Movie

After taking moviegoers magically into the realm of toys, bugs, monsters, fish, and superheroes, the masterful storytellers and technical wizards at Pixar Animation Studios ("The Incredibles," "Finding Nemo," "Monsters, Inc."), and Academy Award®-winning director John Lasseter ("Toy Story," "Toy Story 2," "A Bug's Life"), hit the road with a fast-paced comedy adventure set inside the world of cars. A Walt Disney Pictures presentation of a Pixar Animation Studios film, "CARS" is a high octane delight for moviegoers of all ages, fueled with plenty of humor, action, heartfelt drama, and amazing new technical feats.

Lightning McQueen (voice of OWEN WILSON), a hotshot rookie race car driven to succeed, discovers that life is about the journey, not the finish

line, when he finds himself unexpectedly detoured in the sleepy Route 66 town of Radiator Springs. On route across the country to the big Piston Cup Championship in California to compete against two seasoned pros, McQueen gets to know the town's offbeat characters -- including Doc Hudson (a 1951 Hudson Hornet with a mysterious past, voiced by PAUL NEWMAN), Sally (a snazzy 2002 Porsche voiced by BONNIE HUNT), and Mater (a rusty but trusty tow truck voiced by LARRY THE CABLE GUY) -- who help him realize that there are more important things than trophies, fame and sponsorship.

The all-star vocal cast also includes free-wheeling performances by Tony Shalhoub, Michael Keaton, Cheech Marin, George Carlin, Katherine Helmond, and John Ratzenberger. Delivering more fun and authenticity to the cast for "CARS" are vocal performances from some of the all-time greatest names from the racing world including the legendary Richard Petty, plus "drive-on" roles by Mario Andretti, Dale Earnhardt, Jr., Darrell Waltrip (who holds the record for five-wins at the NASCAR Coca-Cola 600), and Michael Schumacher, the ace German Formula 1 racing legend, who is a seven-times world champion, and is widely considered to be the best Grand Prix racing driver of all-time.
